Education

Indian Institute of Information Technology, Allahabad (IIITA)

B.Tech in Information Technology - Business Informatics

2024 - 2028

CGPA: 7.88/10

Dr. B.R. Ambedkar School of Specialised Excellence, Kalkaji

Senior Secondary Education

2024

95%

Projects

Smart Hostel - *Grievance Intelligence Platform*

[GitHub](#)

Tech Stack: React, TypeScript, FastAPI, SQLAlchemy, Alembic, PostgreSQL, Docker, Tailwind CSS

- Developed a role-based hostel grievance platform with student and admin portals, **14 REST APIs**, JWT cookie authentication, RBAC, complaint history, and resolution workflows.
- Designed a **5-table relational workflow** separating raw complaints from grouped operational issues using SQLAlchemy, Alembic, indexed queries, and issue events.
- Automated **English and Hinglish triage** with category rules, urgency scoring, similarity grouping, duplicate volume, issue status, and SLA pressure signals.

AlgoRadar - *Competitive Programming Analytics and Recommendation System*

[GitHub](#)

Tech Stack: Python, Streamlit, pandas, NumPy, Plotly, scikit-learn, Codeforces API, LeetCode GraphQL

- Created a **3-platform** competitive programming analytics and recommender system integrating the Codeforces API, LeetCode GraphQL, and CodeChef public data with cached ingestion.
- Modeled an explainable **solve-probability scorecard** using rating gap, tag depth, solved volume, failures, popularity, and calibrated difficulty.
- Optimized a recommender for **60 unsolved problems per user** using candidate filtering, learning-value ranking, diversity, similar-problem matching, and pytest regressions.

Technical Skills

Languages C++, Python, JavaScript, TypeScript, SQL, Java

Backend FastAPI, REST APIs, GraphQL, JWT, RBAC

Frontend React.js, TypeScript, Tailwind CSS, Streamlit, Plotly

Databases/ML PostgreSQL, SQLAlchemy, Alembic, pandas, NumPy, scikit-learn

Tools Git, GitHub, Docker, pytest

Core CS Data Structures & Algorithms, Operating Systems, DBMS, Computer Networks, OOP, System Design

Coding Profiles

Codeforces: Pupil (Rating: **1338**)

[NonTourist](#)

CodeChef: 3 Star (Rating: **1651**)

[glitchedsoul18](#)

Aggregate: **600+** DSA and algorithmic problems solved across platforms in Data Structures, Algorithms, and Competitive Programming.

Achievements

- **Goldman Sachs Hackathon Round 1:** Secured **Rank 53** among approximately **16,000** participants.
- **AlgoUniversity Coding Contest:** Ranked **2nd** in a college-level competitive programming contest.
- **JEE Main:** Ranked among the top **0.44%** candidates nationwide.

Leadership & Activities

- **Literary, Art and Drama Society - Volunteer:** Contributed to the planning, coordination, and execution of society events.
- **OOO Hackathon - Finalist:** Advanced to the final round in first year with a team-built Figma prototype; contributed to user flows, wireframes, UI design, interaction design, and the final product presentation.
